Data Sources

The statistics published in this release relate to applications for 24+ Advanced Learning Loans for Level 3+ provision starting in the 2014/15 and 2015/16 academic years.

The data used to produce this monthly report are sourced from the Student Loans Company (SLC) application database. It should be noted that the data refer to all received applications for 24+ Loans (both unprocessed and processed, but excluding those ineligible, cancelled, deleted and in data entry) and are subject to change. Therefore, application figures are not necessarily indicative of actual learner starts.

The data used in this report are sourced from an operational database that is updated on an ongoing basis, and therefore month to month application figures may fluctuate due to further processing of received applications. This may sometimes result in total application figures from launch in a particular table category increasing more or less than would be expected based on the previous month's submitted applications, or even decreasing from one month to the next.
